

Results Artwork Specifications for Peel & Stick Reusable Photo Frame

The requirements shown below should be followed when preparing the artwork for print production of your Photo Frame.

Size of document: 8.4 inches (213.36mm) wide x 6.4 inches (162.56mm) high. Template at actual size (100%) is shown on the following page.

Colours: 4 colour process (CMYK) Do not supply in RGB or PMS Spot colours.

Images: All tiff, eps or jpegs should have a resolution of 300 dpi. If line drawing/art as bitmaps at 1200dpi.

Fonts: If you want to include any text on or around the frame border, fonts should be converted to outlines or curves.

File Format: Supply as high res PDF (print quality) ONLY. No other file format is acceptable.

These Photo Frames are only suitable for standard 6 x 4 inch photos

SPECIAL NOTES:

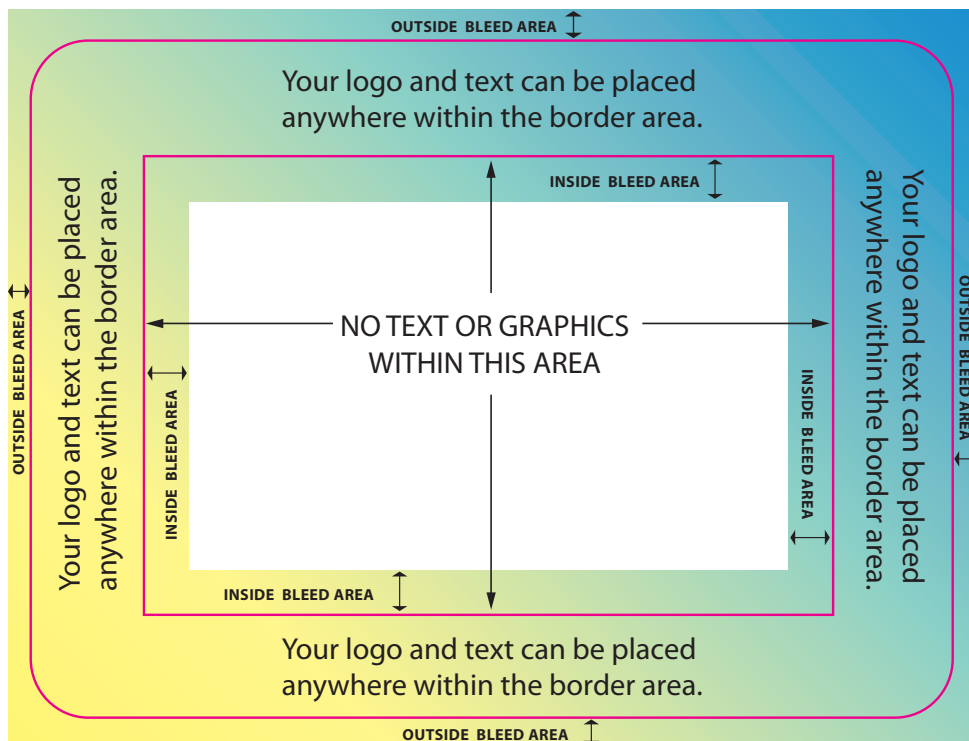

DO NOT show artwork with rounded corners.

The clear centre section will be added during production.

If making up your own template on the final art, it should be shown as a spot colour not as one of the CMYK colours.

DO NOT have any text or graphics extending past the inside or outside of the template shape unless it is part of the background. Only the bleed should extend outside this area if you have an all-over image or coloured background.

Example - not shown actual size

Position your artwork within the areas shown in this example using the template on page 2

Example - not shown actual size

This is how a finished Photo Frame will look when completed, ready to position the photo.
