

Closing down for Christmas?

Tell everyone by giving them the dates on a sachet.

Need a bigger pack?

Our tubes of sunscreen hold 7 times more lotion than the sachets, and fit in pocket or purse.

The Golden Rule

Many of your 'A' list clients began by giving you 'C' class orders! If you look after all your customers ... large and small, they will grow with you.

Want your own design?

No trouble, just call us and we'll print the label and message you want.

Need a matching Christmas Card?

That's easy too. We'll design a card to match, fix the sachet inside the card and supply the envelopes.

If it's the thought that counts, add the sunscreen so they think of you.

Ordering and delivery.

Most companies want their sachets at the start of December, so that means you should order no later than November 15th.

When you get them early December it allows you to meet most of your customers before they break up. But if you leave it to the last minute, don't forget you can still post them. So contact us today, we'll show you the full range and give you the low cost to spread goodwill to all this Christmas.

Who's left out at Christmas?

Not the 'A' list clients ... they get the hampers.

Not the 'B' list clients ... they get the wine.

It's the 'C' list clients ... they get nothing!

Why? Because there are hundreds of them and you can't justify giving them all a \$10 gift.

But this Christmas you can remember and thank every customer, supplier and staff member.

There is a small inexpensive gift that is appropriate for everybody ... from the front desk to the CEO.
